# Abstract

---

OUR PROJECT IS AN E-COMMERCE WEBSITE TO BUY  
NFT'S WHICH IS ALREADY CREATED BY CREATORS.  
THE PROJECT ALLOW SELLER TO UPLOAD THE NFT'S.

THE USER CAN BUY IT. AND THE PROJECT AS AN  
OPTION OF LIKE BUTTON THIS WILL INCREASE THE  
COST OF THE PRODUCT.

# Problem Statement

- There are many issues you may face during the NFT marketplace development, like high and hidden fees, legal issues, lack of creativity for creators, poor customer support, and more.
- NFT projects fail due to a lack of planning, bad decision making, an unprofessional team, and a lack of passion, all can crash an otherwise promising NFT project.
- The main challenge faced in the NFT market is the uncertainty in determining the price of the NFT. Now, the price of any NFT will depend on the creativity, uniqueness, scarcity of the buyers and owners, and a lot more.

# Proposed Solution

We Addressed the above problems and made it very easy to buyers and taking NFT's to all kind of people.

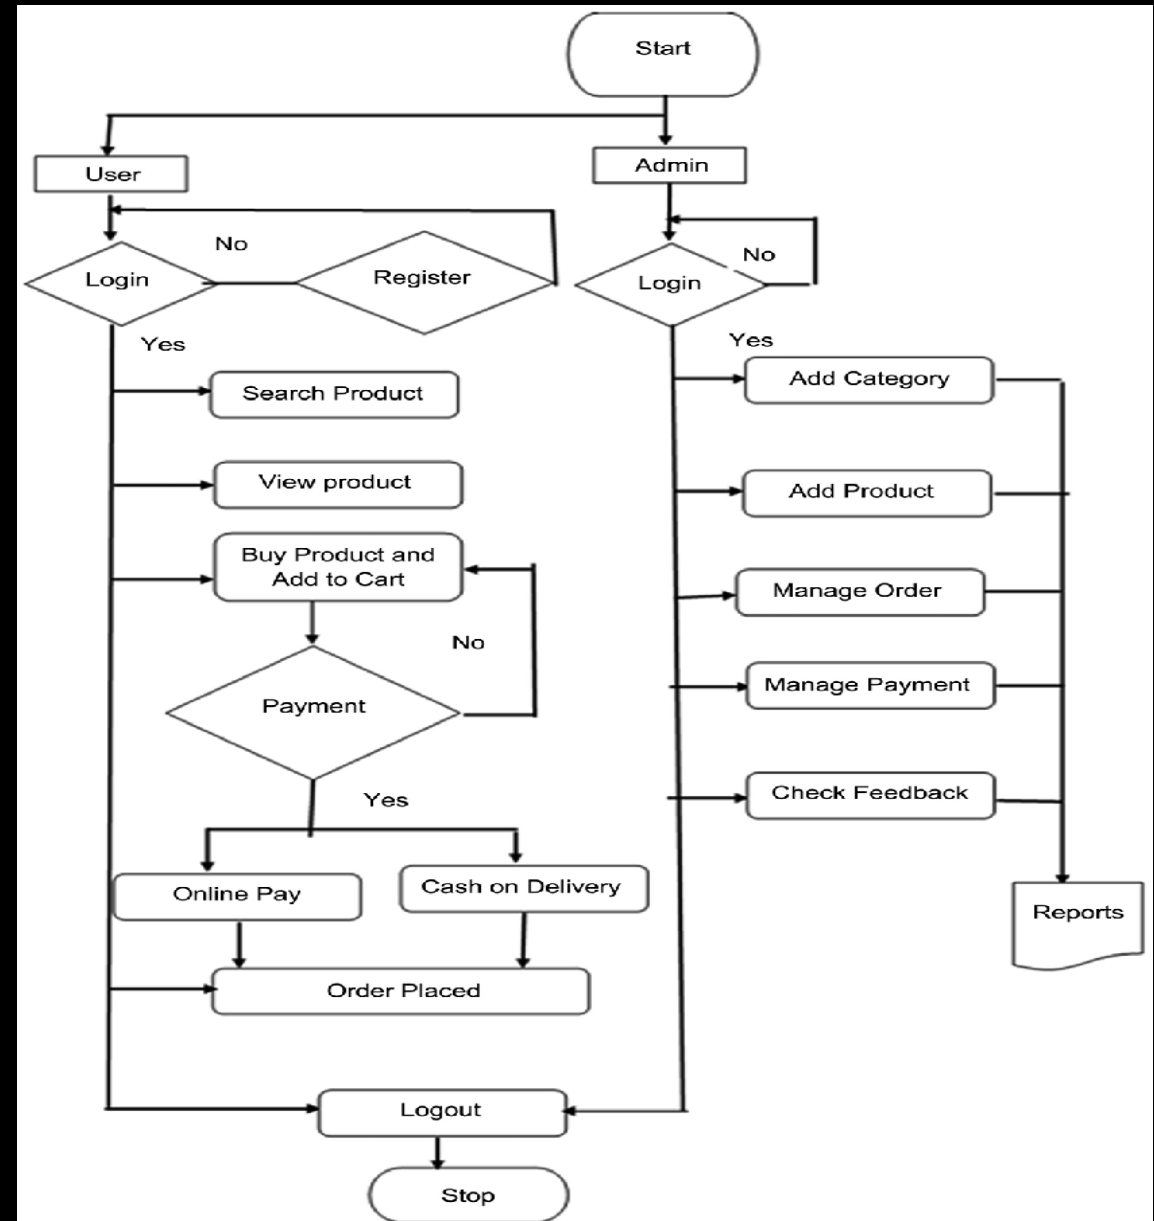

Price here is not Uncertain we are selling in fixed price and only certain NFT's price will increase based on the likes.

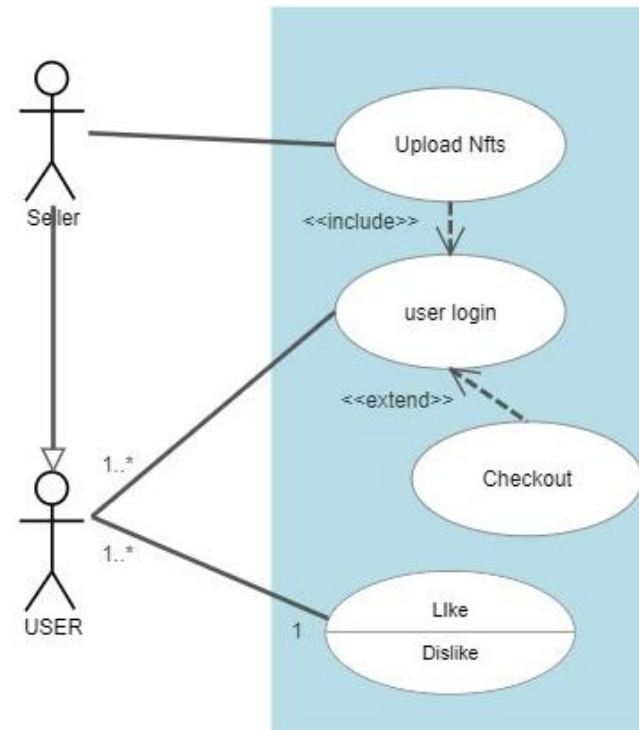

By tying ownership of natively digital artwork to an entry in a public, immutable ledger, the artwork becomes collectable.
